Cowichan Road. The Cowichan settlements are practically insular: you can neither go there from Victoria, nor return, without crossing water. It is true that there is a trail some twenty-five miles long, connecting Shawnigan with Gold Stream, but beyond being a means of getting to and from Victoria on some extraordinary occasion, it is of little or no use. It is of no value for driving stock to market, and it is utterly worthless as a way to convey produce. The settlers of Shawnigan, Quamichan, Comisken, Somenos, Cowichan, and Chemainis, have only one other way to get to this city when there is no steamer running, and that is by canoe. This, possibly, is a slight improvement on the trail, although just about as primitive.

The steamer is undoubtedly a great accommodation at present. But it is far inferior to a good road. In fact the steamer is of less value to the Cowichan ecountry than a good road would be As it is now, the farmer has to provide the UPHOLSTERER AND PAPERHANGER cash to pay for freight fare, and refreshments, on the down as well as on the up trip. Not only that, but he is put to the expense of stopping at a hotel for three tr four days waiting for steamer-day to return. All this costs money; and it is always money out of the farmer's pocket. To townsmen, traders, people who are handling money every day, such expenses are scarcely heeded. But if the case were reversed, and the trader had to remain on expenses in Cowichan three or four days after he had finished his business, the discovery would soon be made that GOLD AND SATIN WALLPAPER. steamboat communication with Cowichan has its dark as well as its bright side. The farmer, however, who depends solely on the sale of his produce for raising money, sees in the freight, in the fare, and in the hotel expenses, the proceeds of the sales of his produce disappearing without any adequate return. He can-not help himself, however, and must submit to the loss, for there are no means by F. GRELLEY. which he can convey his produce or his purchases except by steumer. Now the WHARF ST. VICTORIA, B. C. sentre of Cowichan could be reached by good road in thirty-five miles from Victoris, and of that only about seventeen to at a cost of \$10,000 to complete the line. This sum is so very trifling that none but a Government as anwise and extravagant as ours would ever have squandered away, year after year, thousands of dollars on useless officials, and left the setters of Cowichan to the mercy of a weekly steamer for communication. Fifteen thousand dollars would open up a good road and make all the bridges re-quired between Gold Stream and Chemainis river, a distance of fifty miles by the present trail, or possibly forty-five by a newly surveyed road. Now, if this road were opened, there would be nothmarket wagon from Cowichan or Chemainis to Victoria in one day, make his sales and purchases and return home the following day. By this means the settler would save nearly all the money that he now spends in freight, fare and incidental expenses. More than that,-he would save at least three days on each trip to Victoria, by taking the road instead of the steamer. He would save both time and money. The expense and labor of getting fat cattle to market by steamer would be avoided by the road. Even our town would be benefitted more, and present a far more business-like appearance, if there were a dozen or so market wag-Cowichan country. The Cowichan country, too, would settle up much more rapidly with a good road to Victoria than it would by a daily steamer. Hitherto, owing to the way in which our revenue has been managed, the most miserable pittances have been doled out year by year to Cowiehan, and all the other country districts, for road purposes. If it were not for the road taxes, scarcely any improvement would be visible on the roads of the Island. But next year will put an end to this state of things, thanks to Confederation. We shall then have a large surplus revenue. We shall then have the means to construct a good road from Gold Stream to Chemainis,and possibly to Nanamo. The Cowichan brmer, about a year hence, will not be dependent on a weekly steamer, -for the Government at the next meeting of the Legislature will have to provide for opening a road through to Chemainis at least, and have it completed immediately afterwards. To delay any longer would be most unjustifiable. The railway from Victoria to Canada will also run through

gon road will be required. THE TROUBLE IN FRANCE.—The manufactories of France having been, to a great extent, destroyed by the late war, and in the present demoralized state of the country, much difficulty being experienced in obtaining first-class French silk goods, they are consequently rapidly rising in price. A large purchase was, however, made by Messrs, J. P. Tunstall & Co., of London, previous to the late rise; they are from the celebrated factory of C. J. Bonnet & Cie., of Lyons, the very best makers in France, whose name is considered that sidered, both in Europe and America, a guarantee for extra quality. This fine lot of goods arrived at London House, ex steamer
